

SUPERWASH & MINIWASH

Both the SUPERWASH & MINIWASH units are efficient cleaning systems for clichés, cups, ceramic rings and tooling.

- ▶ Stainless steel construction.
- ▶ Pneumatic operation guarantees absolute safety on the job.
- ▶ Interlock safety door.

▲ SUPERWASH XP-400 Basket

SUPERWASH XP-400 & XP-550

- ▶ Equipped with an active carbon filter with suction device.
- ▶ Washing solvent is sprayed inside the washing machine by a high pressure membrane pump.
- ▶ Nozzles are positioned above, below and on the sides of the tub.
- ▶ Equipped with pneumatic timer, pressure regulator and internal filter for solvent.

MINIWASH

- ▶ Wash cycle powered with a diaphragm pump with air pressure regulator.
- ▶ Automatic shut off when lid is raised.
- ▶ Quick disconnect on the suction pipe for easy removal of pail.
- ▶ Manual cleaning using flow-through brush activated by foot pedal.
- ▶ 14 Swirl Action Jets.
- ▶ One non-corrosive pail on floor inside cabinet.
- ▶ Built-in vent for automatic fume extraction with vent control (*external venting required*).

“Engineered Printing Solutions”

SUPERWASH & MINIWASH UNITS

Features of XP-550

- ▶ Extra large 550mm basket
- ▶ Active carbon filter and exhaust device
- ▶ Eight pressure spray nozzles located above, below and on sides of the tub
- ▶ Pneumatic timer and pressure regulator
- ▶ Washing process takes between 10 to 20 minutes of unattended operation time
